# BUILT FOR LIFE™

Way back in 1913, William Stanley, Jr. invented the world's first all-steel, vacuum-insulated bottle. Workdays and getaways, near and far, would never be the same.

His legacy continues today in everything we engineer. Water bottles with flip-up straws. Travel mugs that fit neatly into car cupholders. Food jars with integrated sporks. Even high-performance cook sets.

With William Stanley, Jr.'s spirit of innovation and quality driving us, we look forward to taking you to exciting, new places. Season after season.

# THE QUICK-FLIP WATER BOTTLES

The Stanley Quick-Flip Water Bottle is now available in the bigger 1.06 L size. Designed with a push button to flip-open the leakproof lid, the larger mouth opening gives you the flow speed that you need. Thanks to the steel latch that holds the top extra tight, it can be safely packed in any bag without a worry. Manufactured using 18/8 stainless steel, this bottle can take a beating and is BPA-free - so your drink stays safe to consume.

## THE QUICK-FLIP WATER BOTTLE

- Double-wall vacuum insulation, 18/8 stainless steel
- Quick-flip, push-button lid for easy drinking access
- Packable, leakproof locking lid
- Two-stage lid for easy cleaning and adding ice
- Dishwasher safe

BUILT FOR LIFE™  
LIFETIME WARRANTY

Stanley has stood the test of time because it's built to.  
That's the Stanley Promise.

Since 1913, we've built our gear to outlast almost everything. Frankly, we've built it to outlast you. So it's no wonder that Stanleys have been known to stand up to some pretty tough stuff: bulldozers, bullets, explosions, hurricanes.

No matter what you put it through, your Stanley will hold up and the contents will stay hot (or cold). It's an agreement that we've been proud to shake on for over 100 years.

But nobody's perfect. If your Stanley doesn't live up to its legendary reputation, we'll do what it takes to make it right. It's that simple.
